An Abstract of the Results shewn in the annexed Tables.

The increase in the value of *Imports* for the past Mercantile year 1842-43, on a comparison with the Imports of the preceding year, amounts to Company's Rupees 28,48,557; and the decrease in the *Exports* to Company's Rupees 74,19,427. (1).

A Memo. of those articles of Merchandise, which have contributed to the increase in the Importation, and those on which a decrease in the Exports is observable, is here annexed:—

IMPORTS.

Merchandise.	Total of Increase in 1842-43, as compared with the Importations of 1841-42.		Name of Country which has principally contributed to the Increase.	To what extent.	
	Quantity.	Value.		Quantity.	Value.
White Cotton Piece Goods, (2)	ps. 14,88,549	19,38,413	G. Britain, ...	ps. 15,04,482	23,17,671
Copper, (Sheet&Nails)	Ind. mds. 20,999	8,09,447	Ditto, ...	Ind. mds. 19,974¼	7,69,830

Segars, ...		1,43,285	Singapore, ...		1,10,709
Treasure, ...		66,01,438	G. Britain, ...		33,78,881

(1) Including the operations in Treasure.

(2) The Decrease in the importation of White Cotton Piece Goods from other quarters, accounts for the apparent anomaly of the Excess in Imports from Great Britain exceeding in quantity the total *Net* Increase.

(3) *Prices* of Paddy per. md. vary considerably according to ports whence imported.

THIS, THE

Seventeenth Volume of the Commercial Annual

FOR THE YEARS

1842-43 AND 1843-44,

IS RESPECTFULLY DEDICATED,

HIS MOST OBEDIENT SERVANT,

E. WILKINSON.

CALCUTTA, *24th June*, 1844.

PREFACE.

We have much pleasure in appearing before our Subscribers with the 17th Volume of the "Annual," shewing a large increase in the Import and Export Trade of the Port; the former to the extent of 76,21,283 Rupees, and the latter to Rs. 2,46,50,105.

On a reference to the Abstract, it will be seen that the Imports in Cotton Goods from Great Britain during the past Mercantile year exceeded the preceding year by 6,09,691 pieces;—in Woollens, from the same place 4,648 pieces and 3,25,428 yards; and in Millinery, from France and England, to the value of 3,64,992 Rupees. Whether these large increases are to be attributed to an increased appreciation by the population at large for the comforts and luxuries of the Western World, or to a desperate appropriation of "idle Capital," for which a higher rate of interest than 3 per cent. could not be obtained "at home"—or from a desire to make a more favourable remittance to India than the low rate of Exchange during the past year could afford—remains to be seen. We fear, however, that the statistical writer must await a *continued steady increase* to the Imports alluded to, before he can advertise a permanent improvement in this particular branch of our Import Trade.

The large increase in the importation of Betel Nuts from Penang arises from a partial deficiency in the country crop, and to an increased demand for the article in the China market.

In our Exports the first item of importance which draws our ıttention, is the increase in the Shipments of Indigo to Great Britain, amounting to not less than 63,160½ Maunds*! To what cause is this to be attributed; to a demand at home for the ırticle, proportioned to the increased Export? We wish we :ould congratulate our Indigo friends upon so interesting a fact; ɔut if we are not grossly misinformed, dear-bought experience has ere this compelled some of the home speculators to acknowledge, that the real cause exists in that indiscreet anxiety for over-specu-ation which now and then appears in this good city to interrupt he even tenor of Mercantile Operations, and to astonish the wise ınd wary Merchant.

There is also an improvement in the Shipment of Raw Cotton,—to China principally; the cessation of hostilities in China, and the consequent healthy reaction in Trade there, ac-ount for the increased Shipments.

The demand for Sugar continuing steady, and no increase in he Crop appearing, we have no increase or decrease to shew in he Exportation of this Article.

As it may be of service to a portion of our Mercantile friends o have some details regarding "Cooley Emigration" placed before hem, a Statement shewing the number of Emigrants sent to he Mauritius from the 20th December 1842, to the 30th April 844, will be found in this year's *Commercial Annual*, page xviii.

* When practicable, it is always advisable to base our speculations on the Trade on *Quantities* and not *Value*. Our information and returns are always extracted from the Custom House Records, and when, as in the case of Indigo, the duty is leviable upon Weight and not upon Value, the prices assigned by Shippers to their Exports for "*Custom House Registry*" are rather too arbitrary to afford any approximation whatever to a correct view of the state of the Trade.

The time, now, is not very far distant when the wishes of this Community for a regular Monthly Steam Communication with England will be realized; many of our Subscribers will, no doubt, readily avail themselves of this speedy mode of transit for the conveyance of all valuable descriptions of merchandise, particularly if (as we have reason to anticipate) arrangements are shortly to be made by the Home Authorities for placing the passage through Egypt upon a permanently secure footing. It may therefore be interesting to keep before the public a record of the "progress of dispatch of Merchandise of the more valuable sort by Steam," and our first Statement on this head will be seen at page xvii.

TARRIFF, as sanctioned by Government Notification, dated May 13th, 1844, ... xix

An Abstract of the Results shewn in the annexed Tables.

The increase in the value of *Imports* for the past Mercantile year 1843-44, on a comparison with the Imports of the preceding year, amount to Company's Rupees 76,21,283; and the increase in the *Exports* to Company's Rupees 2,46,50,105. (1).

A Memo. of those articles of Merchandise, which have chiefly contributed to the increase just quoted, is here annexed:—
